Winterson's Hardy Sweet Scented Peonies

Peony "Festiva
Maxima"

"THE PEOPLE'S FLOWER"

Its Popularity Increases

Peonies continue to grow in favor each year and there are many reasons why this is so. They are among the hardiest of all herbaceous perennials; once planted, they are good for a lifetime, improve in value yearly and rarely fail to give an abundance of flowers; they are comparatively free from the insects and blights that affect nearly every plant grown, whether hardy or tender, and all these qualities make them easily cared for. Given generous ground and a liberal top-dressing each fall, they will yield an abundance of high-grade flowers. The cheapest are in many cases the poorest, and in buying peonies it is far better to pay a fair price and secure improved varieties. There is really no comparison between the choice large flowering sweet scented sorts offered on these pages and the common so-called "Piney's" of our grandmother's garden.

"Festiva Maxima"

"QUEEN SUPREME" OF ALL PEONIES

What an Expert Says About "Festiva Maxima" Peony

Mr. Fr. Bahr, of Highland Park, Ill., recognized as an authority on matters Horticultural, writing in "The Florists' Exchange," issue of July 9, 1910, states as follows:

"Only a few days have passed since I called attention to that grand Peony, Festiva maxima. What a wonderful variety it really is for the florist! To my mind we haven't anything to beat it, no matter what the color or size, and if you are going to make up a list for planting out next September, which, by the way, is really the best time of the year to plant Peonies, don't overlook Festiva maxima. As far as I can find out, this wonderful Peony was offered by Miellez in 1851, and has been 'Queen supreme' ever since. I had the pleasure of seeing a field of it in bloom at a Nursery in Chicago. What a sight, blooms almost eight inches across, with over four foot stems! Of all the many other varieties in bloom at the same time surrounding it none of them impressed me as much. There are plenty of reliable nurserymen in the country offering stock of Festiva maxima, true to name, and every retail grower should have a good number of plants on hand. You cannot invest in anything that will bring better returns. There are the flowers, which, when well done, bring good prices, and the plants will increase in value from year to year. I don't know of anything one could plant which would pay better. Therefore, if you intend planting out one thousand plants next Fall order 700 Festiva maxima, and 150 red and 150 pink of varieties which your nurseryman can recommend. Don't be too particular about the names. You want a good pink and a good red, that is the main thing, if you only grow a few plants."

Our Stock of "FESTIVA MAXIMA" as well as all other varieties offered are guaranteed absolutely True to Name.

Festiva Maxima, generally considered the finest white Peony grown, although an old variety (introduced in 1851), it has never been surpassed and the true variety is always scarce. Color snow-white, center petals touched purplish carmine, enormous full double bloom, very broad petals, handsome foliage, very tall, vigorous grower, splendid strong stem, early bloomer.

Mammoth Undivided Clumps (Supply Limited), which will produce an abundance of bloom next spring.

Each, \$3.00; 6 for \$15.00.

You will not be disappointed in planting these **Mammoth Clumps**. We state with emphasis, there is no other perennial plant that will give so much genuine satisfaction in such a short time after planting.

Large Clumps, each \$1.00; 6 for \$5.00.

Medium Clumps, each 50c; 6 for \$2.50.

Commercial Size Clumps, each 35c; 6 for \$2.00.

Winterson's Hardy Sweet Scented Peonies

(Continued)

A SELECT LIST OF NAMED PEONIES

The "Cream" of Up-To-Date Improved Varieties

MONS. JULES ELIE. It has been truly said that this grand variety is to pinks what *Festiva Maxima* is to whites and surely a fitting companion to the "Supreme Queen" of Peonies. Very large and full globular flower, finest glossy fresh pink, deepening at the base of the petals, reflex, silvery pink, broad overlapping petals. Strong, vigorous grower and free bloomer—perfectly formed. Each, 85 cents; per dozen \$7.50. Mammoth Clumps, each \$2.00 to \$3.00.

UN-NAMED PEONIES. We can supply these in white, pink or red, in good sorts, unnamed, each, 25c; 3 for 65c; doz. \$2.50. Extra large clumps (by express at buyer's expense), each, 75c; 3 for \$2.00.

Peony M. Jules Elie, to Pinks What Festiva Maxima is to Whites.

WHITE PEONIES.

QUEEN VICTORIA (Syn. Whitley). A full, strong, white with creamy center. A choice cut flower variety. Excellent keeper. Each, 25c; per dozen, \$2.50.

GOLDEN HARVEST. Soft pink guard, clear yellow collar, with a tuft of creamy bluish petals, tipped red in center. Free bloomer, medium early. Each 40c; per dozen \$4.50. Mammoth roots, each \$1.50 to \$2.00.

DUCHESS DE NEMOURS (Cal.) Pure white without markings, large guard petals, very fragrant. Each 35c; per dozen \$4.00. Mammoth clumps, each \$1.50 to \$2.00.

FESTIVA MAXIMA (See Opposite Page).

FESTIVA. Large perfectly formed cup-shaped flower, glossy cream white, center petals touched carmine. Dwarf grower, later than Festiva Maxima. Each 35c; per dozen \$4.00. Mammoth Clumps, each \$1.25 to \$2.00.

MADAM CROUSSE. Pure white, sometimes slight crimson markings in center. Very free and one of the most fragrant. Mid-season, beautiful bud. Each, 50c; per dozen, \$5.00. Mammoth roots, each, \$1.50 to \$2.00.

MARIE LEMOINE. Enormous, very full bloom. Sulphur white, slightly shaded chamois, narrow carmine edge, latest blooming white. Each, 60c; per dozen \$7.00. Mammoth clumps, each, \$1.75 to \$2.25.

COURRONE D'OR. Immense, very full imbricated ball-shaped bloom; color snowy, with yellowish reflex with light carmine edges on a few center petals. Each, 50c; per dozen, \$5.00. Mammoth size, each, \$1.50 to \$2.00.

MADAME DE VERNEVILLE. Compact, full imbricated blooms; very broad guards sulphur white, center delicate rosy white with an accidental touch of carmine. Each, 50c; per dozen, \$5.00. Mammoth size, each \$1.50 to \$2.00.

PINK PEONIES.

MONS. JULES ELIE. (See Above).

DELICATISSIMA or FLORAL TREASURE. Flesh, passing to bluish white, full double, sweet scented, extra fine. Each, 50c; per dozen, \$5.50. Mammoth size, \$1.50 to \$2.00 each.

EDULIS SUPERBA, also called Duchess De Nemours Pink. Very large bloom of perfect shape, fine brilliant pink shaded violet, intermixed with narrow whitish petals, silvery reflex, a fine, early blooming cut flower variety. Each, 30c; per dozen \$3.00. Mammoth size, each, \$1.50 to \$2.00.

MME. EMILE GALLE. Large cup-shaped imbricated bloom, soft lilac with yellowish white center changing to a creamy shade, petals bordered lilac; conspicuously fresh coloring. Extra fine. Each, \$1.00. Mammoth size, each, \$2.00 to \$3.00.

LADY BRAMWELL. Large, very full globular bloom, fine bright pink with white reflex. Excellent cut flower. Each, 30c; per dozen, \$3.25.

TRIOMPHE DE L'EXPOSITION DE LILLE. Large imbricated bloom of perfect shape, soft fleshy pink with white reflex, carmined center. Each, 60c; per dozen \$6.00. Mammoth size, each, \$1.75 to \$2.50.

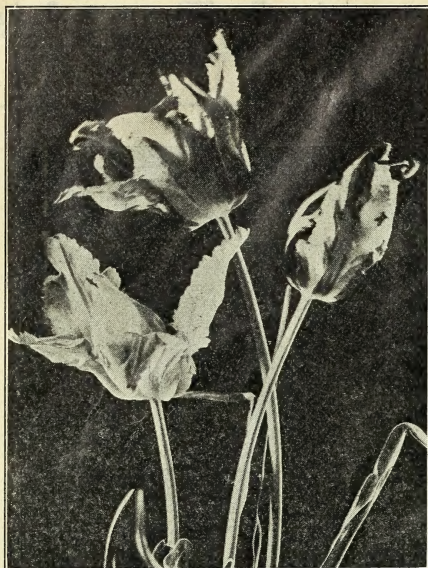

RED PEONIES.

FELIX CROUSSE. We have the true variety, beware of substitutes. Large anemone ball-shaped bloom, very brilliant red, ruby flame, colored center, one of the best reds. Each, 50c. Mammoth size, each, \$2.50 to \$3.00.

MODESTE GUERIN. Very large anemone, ball-shaped bloom, perfectly built, very bright lively purplish carmine, superb foliage, a very choice variety. Each, 60c; per dozen, \$7.00. Mammoth size, each, \$2.00 to \$2.50.

Remember! All Peonies listed in this catalogue are guaranteed absolutely true to name, you will, no doubt, find lower prices quoted for "NEAR ALIKE" varieties, but such generally prove to be great disappointments—secure the genuine.

"WASHINGTON" BRAND CHERRY TREES ARE WORTH WHILE. SEE BACK COVER.

PARROT TULIPS.
The most brilliant in coloring of all the tulip family.

To Our Friends and Patrons

THE Planting of Flowering Bulbs in the Autumn season makes it possible for you to have beautiful and fragrant flowers for the home during the dreary months of Winter as well as handsome garden and lawn effects in the early Spring. Furthermore, the setting of Perennials, Shrubs, Fruits, etc., at this time insures a big advantage over Spring planting. We want to help you plan your garden and our force of experts is at your service free of charge.

Write us your needs, or better still, make a personal call at our store. We beg to call particular attention to a few of our specialties, viz.:

The "Supreme Queen" of Peonies, "Festiva Maxima"

The "Perfection" of Cherries, "Washington" Brand

May Blooming Tulips

We make free delivery either in Chicago or suburbs of anything listed in this Catalogue to the amount of \$1.00 or upward.

Soliciting your commands,

Yours faithfully,

WINTERSON'S SEED STORE,

E. F. Winterson Co., Prop.,

45-47-49 Wabash Ave., Chicago.

OUR GARDEN GUIDE FOR SPRING 1911

Will be issued January 1st and we shall be pleased to mail you a copy. Kindly send us your name and address NOW. If you wish to "Make Your Garden Glad" it will be worth your while to get a copy of this Book.

Non-Warranty While we exercise the greatest care to have all Seeds, Plants and Bulbs pure and reliable, it is hereby mutually agreed that we do not warrant the same and are not in any respect liable or responsible for the Seeds, Plants or Bulbs sold by us, or for any loss or damage arising from any failure thereof in any respect.

AUTUMN SOWING OF "HARDY EVERGREEN" LAWN SEED WILL SHOW BOUNTIFUL RESULTS Next Spring.

HOW TO BE SUCCESSFUL WITH FLOWERING BULBS

To obtain winter and spring flowers in the house and beautiful garden and lawn effects during the spring season it is necessary to plant the bulbs in the fall.

There are two classes, namely, what is known as "Cape" and "Dutch" bulbs. The "Cape" varieties are not hardy but must be protected during the winter. Pot them and place them out-of-doors, watering them frequently as the soil's needs demand, and, upon the approach of frosty nights, store them in a cool, light place. The best place for them is in a coldframe or deep pit, but a light, cool room will serve the purpose very well indeed. Here the temperature will never rise very high, thus permitting the plants to make a good strong root-growth, without much leaf growth.

Freesias and oxalis, planted in August, can be brought into bloom at Christmas time very readily. They must be brought in from the coldframe or pit late in October or early in November, and grown in a house with a temperature of about 50 or 55 degrees at night.

The soil for all bulbs should be rich and well drained. A soil composed of equal parts of well-rotted sod, sharp sand, leaf mould, and well-decayed manure, preferably horse manure, is desirable.

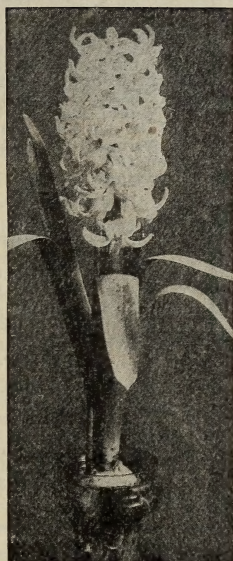

Dutch bulbs are hardy, and it is not so necessary to guard them against the cold. As a matter of convenience, however, it is better to store them where they can be gotten at easily at any time during the winter. For this reason a deep cold frame, which can be kept dark,

will be found an ideal place, but if you have a cool cellar in which the air is not too dry, equally good results can be had. Cover the pots with a few inches of soil, and water if the earth shows any signs of drying out.

From the pit or cellar the bulbs can be brought to the house or greenhouse when wanted for flowering. During the early part of winter, say in December, it will take at least four weeks, and maybe as many as six, to bring the Dutch bulbs into flower. As the winter advances, the time for forcing will seldom run over four weeks, and perhaps a few days less.

The making of the bulb beds out-of-doors is not at all intricate. The bed should be dug out about four inches deep, and the soil which is taken out laid to one side. Then the bed should be spaded to a depth of six or eight inches, turning under some very well decayed manure, which should be put under deep enough so that it will not come in contact with the bulbs. After having smoothed the soil, spread about one-quarter to one-half inch of sand over the bed, and in this mark out the design desired, or indicate where you wish to have the rows of plants. The sand is put in as a sort of prevention against the rotting of the bulbs.

When the bulbs have been planted out-of-doors, they will need no further attention until the ground freezes. Then give the bulb bed a light mulch of strawy manure, say four or five inches, which should be gradually removed as the spring season opens up.

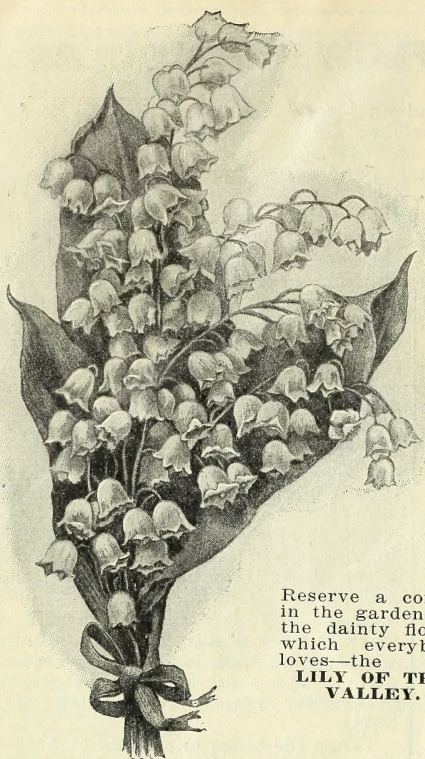

Dutch Hyacinth Growing in Water
Illustration by courtesy of Suburban Life

A PLANTING TABLE FOR BULBS—From *Suburban Life*

Name of Bulb	How deep to plant (Inches)	How far apart (Inches)	Time of Bloom		Cultural Information
			Outdoors	Indoors	
Anemone	½	1½	March	Cape. Curious dried-up looking bulbs that produce large, gorgeous-colored flowers.
Astilbe Japonica.	½	1 in 6-in. pot	May, June	Feb. to April	Dutch. Produces large feathery spikes. After forcing plant in the garden.
Calla	1½	1 in 7-in. pot	Christmas on	Commences growth immediately after potting. Give rich soil and liquid fertilizer.
Crocus	in pots ½	1½	March	Dec. to April	Dutch. Grow in 6-inch pans. Keeps in good condition for a week.
Freesia	outdoors 2	scatter	Dec. to April	Cape. The sweetest-scented bulbous plant. After flowering ripen off the bulbs.
Gladiolus	1	2	Easter	Commence forcing about Christmas. Grow in deep boxes, needs temperatures of 50 degrees.
Hyacinth	in pots ½	1½	April	January	Dutch. Start forcing December 20 in cool house, raise boxes, needs temperature of 50 degrees.
Hyacinth, Grape.	outdoors 5	6 to 8	April	January	Dutch. Easily forced. Has small spikes covered with flowers.
Hyacinth, Roman	1 to 3	in pots 1	Christmas on	Dutch. Easy to force, three weeks enough. Spikes often need staking.
Iris	outdoors 4	3 to 4	May, June	January	Dutch. Commence forcing early in December. Eight weeks necessary.
Ixia	3	3½	March	Cape. Eighteen inches tall with many star-like flowers. Buy new bulbs each fall.
Lily, Easter.....	1	1	Christmas	Dutch. Requires 16 to 20 weeks to force. Must be kept free from aphides.
Lily-of-the-Valley	in pots 1	1 in 6-in. pot	January	Plant in sand and give strong bottom heat, temperature of 90 degrees and much humidity.
Narcissus	in pots ½	½	May	January	Dutch. Grow in 6-inch pots. Needs four weeks to flower.
Oxalis	outdoors 3	1	April	Christmas	Cape. Grow in hanging-baskets as well as in pots. Cape. The turban and Persian ranunculus will please, Bulbs increase rapidly.
Ranunculus	outdoors 4	4 to 6	May	March	Bulbs have red ball-like flowers.
Scilla	1	2	January	Dutch. Scatter over lawn and plant where they fall. Forced in three weeks.
Snowdrop	3	4	March	January	Dutch. Scatter over lawn and in border near house foundation for early flowers.
Tulip	in pots ½	1	April	January	Dutch. Force Duc van Thol for early. Doubles will not force until late in season.
	outdoors 3	5	May		

WE GUARANTEE ALL BULBS TO BE STRICTLY FIRST SIZE.

Reserve a corner
in the garden for
the dainty flower
which everybody
loves—the
**LILY OF THE
VALLEY.**

HARDY LILY OF THE VALLEY.

L. SPECIOSUM MELPOMENE.

(Ready in October.)

A most beautiful variety. Flowers frosted white, spotted, clouded and bearded with pinkish crimson. Petals deeply recurved and widely bordered.

Bulbs, 8 to 9-inch, each 15c; 3 for 40c; per dozen \$1.40; 25 for \$2.00; per 100 \$7.50.

Bulbs, 9 to 11-inch, each 25c; 3 for 60c; per dozen \$1.60; 25 for \$3.00; per 100 \$10.00.

L. SPECIOSUM ALBUM.

(Ready in October.)

Pure white, with beautiful recurved petals; very fragrant. This with Rubrum and Melpomene, belongs to the "Speciosum section."

Bulbs 8 to 9-inch, each 20c; 3 for 50c; per doz., \$1.75; per 25, \$3.00; per 100, \$10.50.

Bulbs 9 to 11-inch, each 30c; 3 for 75c; per dozen \$2.50; per 25 \$4.50; per 100 \$15.00.

Monster, each 40c; 3 for 90c; per dozen \$3.25; per 25 \$6.00; per 100 \$22.00.

TRUE BERMUDA EASTER LILY.

(Lilium Harrisii.)

(Ready in August.)

Mammoth white Trumpet Lily, with flowers 4 to 5 inches long, is the best of all Lilies for winter forcing and flowering, because its grand trumpet-shaped flowers, which give forth a delicious perfume, are wonderfully beautiful and expressive.

Extra Size Bulbs which should produce from 8 to 15 flowers 20c each; 50c for 3; \$1.40 per dozen; \$2.75 for 25; \$10.00 per 100.

JAPANESE EASTER LILY—Lilium Longiflorum Multiflorum.

(Ready in September.)

For indoor pot culture.

Extra Size Bulbs, which should produce from 6 to 10 flowers, 15c each; 40c for 3; \$1.00 per dozen; 2.00 for 25; \$7.00 per 100.

Mammoth Bulbs, which should produce up to 15 flowers on a stalk, 20c each; 55c for 3; \$2.00 per dozen; \$3.75 for 25; per 100 \$14.00.

TIGRINUM SPLENDENS

(Improved Tiger Lily.)

(Ready in October.)

Single and double flowering.

The grandest of the Tigers, black polished stem, sometimes 6 feet high. Very large pyramids of flowers, orange-red, spotted with black, 3 to 5 feet. Blooms in August. 10c each; \$1.10 per dozen; \$7.00 per 100.

Hardy Sweet Scented Lilies

LILY OF THE VALLEY—Mammoth Pips.

(Ready in November.)

Produce strong spikes of flowers, about 15 to 18 inches in height, bearing from twelve to twenty extra large pure white bells. Delightfully fragrant, for pot culture or forcing.

Price, per bundle, 25 pips, 60c; 4 bundles, 100 pips, \$2.00.

LARGE IMPORTED CLUMPS.

For Outdoor Planting.

Plant in a shady, moist position. Very hardy. Each 35c; per dozen \$3.50.

LILIUM CANDIDUM—Madonna or Annunciation Lily.

((See Illustration on Front Cover.))

(Ready in August.)

The flowers, of which there are three to twenty on each stem, are snow white with heavy yellow stamens and of the most delightful fragrance. Will thrive in any ordinary garden soil. Blooms in the open ground about June 20. Early planting of this variety is desirable.

Select Bulbs. 10c each; 25c for 3; 85c per doz.; \$1.75 for 25; \$6.50 per 100; \$14.00 for 250.

Mammoth Bulbs. 20c each; 50c for 3; \$1.50 per doz.; \$10.00 per 100.

Jumbo Bulbs. 50c each; \$5.00 per dozen.

LILIUM AURATUM—The "Queen" of Lilies.

(Ready in October.)

Flowers white, dotted crimson with a clear, broad, golden band running through the center of each petal.

Bulbs, 8 to 9-inch, each 15c; 3 for 40c; dozen \$1.25; 25 for \$1.75; per 100 \$6.00.

Bulbs, 9 to 11-inch, each 25c; 3 for 60c; per dozen \$1.60; per 25 \$3.00; per 100 \$10.50.

Monster, each 35c; 3 for 90c; per dozen \$2.50; per 25 \$4.50; per 100 \$16.00.

L. SPECIOSUM RUBRUM—Crimson Banded.

(Ready in October.)

Flowers white, with a deep rosy or crimson band on each petal, with deeper colored spots between.

Bulbs 8 to 9-inch, each 15c; 3 for 40c; per dozen \$1.25; per 25 \$1.75; per 100 \$6.00.

Bulbs 9 to 11 inch, each 20c; 3 for 50c; per dozen \$1.75; per 25 \$3.00; per 100 \$10.00.

Monster, each 30c; 3 for 85c; per dozen \$2.50; per 25 \$4.50; per 100 \$15.00.

HARDY SWEET SCENTED LILIUM AURATUM.
As Grown by Mr. B. F. Kirtland, Wilmette, Ill.

PLANT A BED OF HARDY LILIES THIS FALL, THEY WILL PLEASE YOU NEXT SUMMER.

Winterston's Early Flowering Tulips

Are absolutely hardy; grow most anywhere, and it is seldom, indeed, that they make a failure. Bulbs may be left in the ground for years and good blooms will be produced for several seasons. The following varieties have been selected from many hundred sorts, and are considered as being the most satisfactory both for indoor and outdoor culture.

A BED OF SINGLE EARLY TULIPS.

SINGLE NAMED EARLY TULIPS.

The letters A and B indicate the proportional earliness of the varieties if planted outdoors. The numbers preceding names show the height of growth in inches. Those marked F after the name are the best for forcing in the house or greenhouse.

Single Varieties.		Each	Per doz.	Per 100	1,000
B 7	Artus , Brilliant red. F.....	\$0.03	\$0.25	\$1.30	\$11.00

SINGLE TULIPS IN SEPARATE COLORS.

These are composed from varieties of same height and which bloom at the same period—especially recommended to purchasers who do not desire to go to the expense of purchasing named varieties.

N. B. We do not recommend double varieties in this connection.

	Each.	Doz.	100	1,000
White Shades	\$0.03	\$0.25	\$1.25	\$10.00
Yellow Shades03	.25	1.25	10.00
Red Shades03	.25	1.25	10.00
Pink Shades03	.25	1.25	10.00
Variegated Shades03	.25	1.25	10.00
Violet and Purple03	.25	1.25	10.00

THE GRAND BEDDING TULIP, KEIZERSKROON.

A bed of this most beautiful of Tulips when in bloom is certainly a dazzling sight. The combination of colors, **Brilliant Red** and **Clear Golden Yellow**, cannot be surpassed by any other variety. The flowers are of extra large size with very strong stems which protect them against rain and wind storms; furthermore on account of their general strong character they make a perfect showing for a longer time than any other variety. We have received from a specialist in Holland an exceptionally fine stock of this Tulip and offer them at the low prices as below.

Note—Keizerskroon is also a most desirable sort for forcing and house culture.

Price regular first size bulbs, each 4c; doz. 30c; per 100 \$1.50; per 1,000 \$13.50.

Price "Mother" Bulbs, extra fine, frequently producing two and more flowers to each bulb, each 4c; doz. 35c; per 100 \$2.00; per 1,000 \$18.00.

FOR LATE BLOOMING TULIPS, WE PARTICULARLY RECOMMEND SCARLET GESNERIANA, PICOTEE (OR MAIDEN'S BLUSH) AND BOUTON D'OR. SEE PAGE 6 FOR DESCRIPTION AND PRICES.

A BED OF TULIPS PLANTED THIS FALL WILL PRODUCE A WEALTH OF BLOOM NEXT SPRING.

DOUBLE NAMED EARLY TULIPS.

Very desirable for bedding purposes. White, red and yellow sorts, of about the same height, planted in lines of three or four rows of each color, form with their large rose-like flowers, beds of surpassing grandeur. Those sorts marked with an asterisk (*) are the earlier kinds, which are not only valuable for bedders, but succeed admirably if forced in pots. Those not so marked are not recommended for pot culture. A's flower together, B's follow, etc.

A 10 **Crown of Gold**, Coppery gold. Each 4c; per doz. 35c; per 100 \$2.00, per 1,000 \$18.00.

B 8* **Duke of York**, Purple yellow edge, each 3c; per doz. 25c; per 100 \$1.25; per 1,000 \$10.00.

A 8 **Gloria Solis**, Brown and gold. Each 4c; per doz. 30c; per 100 \$1.50; per 1,000 \$13.00.

A 8* **Imperator Rubrorum**, Brilliant scarlet; fine for forcing and one of the grandest for bedding. Each 4c; per doz. 40c; per 100 \$2.25; per 1,000 \$21.00.

B 6* **La Candeur**, Pure white, used with Rex Rubrorum to form bedding designs; it makes a fine effect. Each 4c; per doz. 30c; per 100 \$1.50; per 1,000 \$13.00.

B 6 **Murillo**, Light pink; very early; splendid for bedding and forcing. Each 4c; per doz. 30c; per 100 \$1.50; per 1,000 \$13.00.

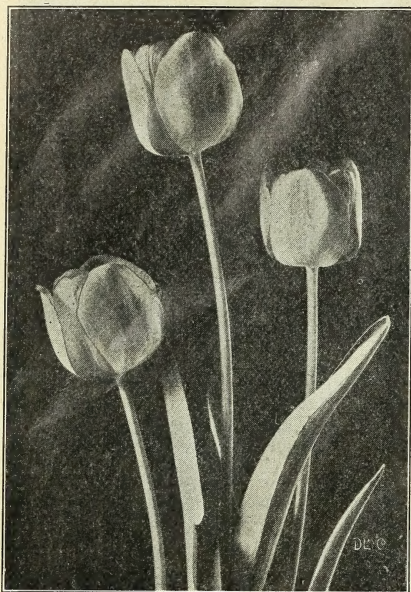

B 7 **Rex Rubrorum**, Bright scarlet. Each 4c; per doz. 30c; per 100 \$1.85; per 1,000 \$16.50.

B 5 **Rose Blanche**, Pure white, very fine. Each 3c; per doz. 20c; per 100 \$1.15; per 1,000 \$9.50.

Salvator Rosa, Deep rose, splendid. Each 4c; per doz. 35c; per 100 \$2.15; per 1,000 \$19.00.

A 7* **Tournesol**, Red and yellow. Each 4c; per doz. 30c; per 100 \$1.90; per 1,000 \$17.00.

A 7* **Tournesol**, Pure yellow, finest double yellow. Each 4c; per doz. 30c; per 100 \$1.85; per 1,000 \$16.00.

"QUEEN VICTORIA"

Snow White, Shaded Rosy Pink

See Page 5 for Description and Prices

DARWIN TULIPS, EXTRA FINE MIXED.

The finest class of late flowering Tulips in existence. Flowers are brilliant, self colored, borne on strong stems, many of them 2 feet high. The colors surpass in brilliancy anything hitherto known in Tulips, and are of almost every conceivable color, from pale blush to the brightest red, lilac, light blue, and purple to almost black. 3 cents each; 25 cents per dozen; \$1.30 per 100; \$11.00 per 1,000.

WINTERSON'S GRAND TULIP MIXTURES.

Our Tulip mixtures contain a great variety of colors and will produce excellent flowers. They are not, or course, as desirable for bedding, where uniformity is desired, as the named or separate colors; however, they give very fine results in this connection, and for cut flowers they are sure to give much pleasure. Desirable for planting in shrubby borders, etc. We import only first size bulbs.

SINGLE, EARLY BLOOMING.

Special Mixture. Made up of named sorts, proper proportions of bright colors, blooming together and of uniform height. Dozen 20 cents; 100 for \$1.00; 1,000 for \$8.50.

Fine Mixed. Per dozen 15 cents; per 100 75 cents; per 1,000 \$7.50.

DOUBLE EARLY BLOOMING.

Superfine Mixed. This mixture comprises only the best bedding sorts in equal proportion and contains a splendid variety of showy colors. Per dozen 20 cents; 100 for \$1.10; per 1,000 \$10.00.

Fine Mixed. An excellent mixture for outdoor planting. Dozen 15 cents; per 100 \$1.00; 1,000 for \$8.50.

WINTERSON'S LATE BLOOMING OR SHOW TULIP MIXTURE.

This mixture contains many of the above named sorts and other new and rare varieties. We mix it ourselves and know just what it contains. The result from a planting of 100 bulbs will be dazzling and we strongly advise our customers to order at least this many bulbs. Each 4 cents; 35 cents per dozen; 60 cents for 25; \$1.75 per 100; \$4.00 for 250; \$15.00 per 1,000.

SINGLE LATE, OR SHOW TULIPS. For the Open Ground Only.

These are grown by the florist and amateur for their beautiful bloom; and are particularly good for planting in borders, amongst shrubbery, etc. They remain in fine condition much longer than the earlier classes and are most desirable for brilliant and lasting displays. They usually grow to a height of two feet. Especially useful as cut flowers. Don't fail to plant at least a few dozen of these grand Tulips. You will be more than pleased with them. They extend the flowering bulb season to the end of May.

TRUE SCARLET GESNERIANA.

This is a tall growing, late Tulip, and undoubtedly one of the finest in cultivation. The flowers are as large as coffee cups and borne on stout stems nearly 18 inches from the ground. The color is brilliant, crimson scarlet, with a large peacock-blue blotch in the center, and of very strong fragrance. No Tulip that has come under our observation is at once so brilliant and lasting. They remain in bloom from three to four weeks, and are admirable when planted in groups among evergreens and shrubbery where they show up to splendid advantage against the dark background. 4 cents each; 30 cents per dozen; \$1.50 per 100; \$12.00 per 1,000.

PICOTEE OR MAIDEN'S BLUSH.

A long-shaped flower; pure white; with beautifully recurved petals margined rose; borne on long graceful stems. 3 cents each; 25 cents per dozen; \$1.30 per 100; \$11.00 per 1,000.

BOUTON D'OR.

The finest and deepest golden yellow Tulip. Splendid for cutting. Flowers are a handsome globe shape. 3 cents each; 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

BIZARRES.

Yellow ground, feathered crimson, purple or white. 3 cents each; 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

BYBLOEMS ROSES.

White ground, shaded rose; tall, very showy; bloom in May. Fine mixture. 3 cents each; 25 cents per dozen; \$1.30 per 100; \$11.00 per 1,000.

BYBLOEMS VIOLETS.

Tall and brilliantly variegated; white ground, flaked lilac purple or black. 3 cents each; 25 cents per dozen; \$1.30 per 100; \$11.00 per 1,000.

PARROT TULIPS, EXTRA FINE MIXED.

These gay flowers of great size and beautiful variegation flower about thirty days later than the earlier kinds. The fringed and corrugated petals with their wonderful color variation make not only the most brilliant possible flower bed but admirable cut flowers for vases. The thick petaled flowers with long stems keep well after being cut. Extra fine mixed, each, 3 cents; per dozen 20 cents; per 100 \$1.15; per 1,000 \$9.00.

PARROT'S, THE SHOWIEST OF ALL TULIPS.

Winterson's Large Flowering Dutch Hyacinths

The Hyacinths are deservedly the most popular bulbs grown. They are extremely fragrant and can be obtained in many lovely shades. It is the ideal flower for indoor culture, in the fall and winter, as well as being most satisfactory for bedding and general outdoor culture. Our bulbs are especially selected and can be depended upon to produce excellent results.

EXHIBITION OR "TOP ROOT" HYACINTHS

Through our large purchases in Holland we were able this year to secure a limited number of these "Mammoth Hyacinths," the stock of which has heretofore mainly been supplied to European Horticulturists. They are absolutely the choicest Hyacinths produced in Holland. Early orders for these superior bulbs are advisable.

L'INNOCENCE, Pure White.
GRAND MAITRE, Dark Porcelain Blue.
MINA, Pure White.
KING OF THE BLUES, Dark Blue, Extra.
ANGENIS CHRISTINA, Dark White.

JOHAN, Light Blue, Extra.
CARDINAL WISEMAN, Dark Rose, Extra.
MORENO, Waxy Pink, Early.
ROI DES BELGES, Bright Scarlet.
Price, 15c each; 3 for 35c; per dozen \$1.25; per 100 \$10.00.

WINTERSON'S

"SPECIAL GRADE"

Forcing and Bedding Dutch Hyacinths

The bulbs under this heading are of a much larger size than those put in ordinary mixtures; in fact, most of these average as large as those often sent out as "First Size Named" by some dealers. They will produce grand spikes of blooms.

WINTERSON'S

"Mixed Grade"

Dutch Hyacinths

For Indoor Culture and Bedding

These Hyacinths are all large-sized healthy bulbs, well adapted for outdoor planting. The colors being kept separate, the purchaser can make his selection of colors as his taste may dictate. The bulbs can also be forced for winter flowering or cutting.

Single Mixed Varieties.

Pure white, blush white, rose, red, light blue, dark blue, yellow, mixed, all colors. Each 4 cents; dozen 40 cents; 100 for \$3.00.

Double Mixed Varieties.

Pure white, blush white, rose, red, light blue, dark blue, yellow, mixed, all colors. Each 5 cents; dozen 40 cents; 100 for \$3.00.

SELECTED NAMED DUTCH HYACINTHS—Guaranteed Strictly First Size.

Where distinct colors are desired there is nothing more elegant in Hyacinths than the best named varieties. We mention below a selection that cannot be surpassed. As a general rule the single flowering varieties will be found surer bloomers and more effective in display than the double sorts. Specially suited for growing in pots or glasses or for high class bedding, at a uniform price of 10 cents each; per dozen \$1.00; per 100 \$7.00.

SINGLE RED AND ROSE HYACINTHS.

Cardinal Weisman. Fine rose.

Gertrude. Rosy pink, large erect spike.

SINGLE PURE AND CREAMY

Baroness van Thuyll. Snow white, large compact truss

of many bells.

Grandeur a Merville. Finest blush white.

Blondin. Beautiful silvery blue, compact.

Grand Maitre. Grand large spike, pure ultra-marine blue, shaded porcelain, strong grower.

Gigantea. Rose and blush, large bells.

Roi des Belges. Very large, full spike, fine deep color.

WHITE HYACINTHS.

L'Innocence. Pure white, large bells.

Madame Vanderhoop. Very fine; pure white; very large truss.

BLUE HYACINTHS.

King of the Blues. Rich dark blue, large bells.

Queen of the Blues. Fine light blue, large bells.

SINGLE YELLOW.

King of the Yellows. Pure yellow.

DOUBLE RED AND ROSE HYACINTHS.

Bouquet Tendre. Dark red.

DOUBLE WHITE HYACINTHS.

La Virginite. Rosy center.

DOUBLE BLUE.

Garrick. Clear blue, large spike, early.

GRAPE HYACINTHS

White, per dozen\$0.25; per 100 \$1.00 Blue, per dozen.....\$0.20; per 100 \$0.75

Winterson's Selected Hyacinths

(Continued)

DUTCH ROMAN OR MINIATURE HYACINTHS

Also Called "PAN" AND POMPON HYACINTHS

A very simple method of growing Hyacinths for winter flowering in the house is to start them in earthen pans, planting only one kind of Hyacinth in one pan, in order to have them all bloom at once, and to have them all the same shade. The varieties mentioned below are the best sorts for this mode of culture. By planting 10 or 12 of these "Pan Hyacinths" in a pan 8 or 9 inches in diameter the most satisfactory results will be obtained. They come into flower after the **French Roman Hyacinths** and are extremely fragrant.

These (so-called) Miniature Hyacinths can also be planted in the open ground with good results. While they do not as a rule produce as large flowers as those Hyacinths classed on page 7, they are, however, of sufficient size to make a good showing either for bedding or to grow for cut flowers.

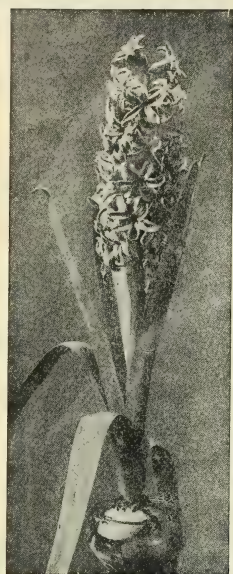

VARIETIES AND PRICES.

Gertrude. Fine pink.
Gigantea. Pale pink.
Baroness Van Thuyl. Snow white.
L'Innocence. Pure white, large spike.
Grand Maitre. Bright blue.
Johan. Porcelain blue, extra fine.
 Price of any of above named varieties, each 4c; per dozen 40c; or \$2.50 per 100.

GROWING HYACINTHS IN WATER

A very novel manner of cultivating Hyacinths is to grow them in water. (See cut above.) We offer glasses especially made for this purpose as per illustration opposite. The method of culture is as follows: Fill glass with ordinary water so that the bottom or root part of bulb is covered, then place in a cool dark room or closet, leaving there until roots touch the bottom of glass. Afterward take to the light, when a light paper cone should be placed over the top for about two weeks in order to draw up the spike. It is usually necessary to replenish water weekly and a few small pieces of charcoal placed in the glass will tend to keep water sweetened.

NOTE.—The selected named Hyacinths are most suitable for growing in the above named manner.

DUTCH HYACINTH
Growing in Water

Tye Shape, each
25c; per dozen \$2.50.

French Roman or Christmas Hyacinths

Make splendid plants for the window garden, grown in whatever device may be desirable. They should be treated in all respects like the other classes, only that they come into flower much earlier, and should, for first flowers, be brought in by the 15th of November; by so doing, they will give their flowers in perfection by Christmas.

The great beauty of this class of Hyacinths is their profusion of flowers, each bulb giving from three to six spikes, according to the size and strength of bulb. The flowers are smaller than those of the Dutch Hyacinths, but more graceful. The bulbs being small, three can be put in a 5-inch pot.

ROMAN HYACINTHS.

Narcissus or Daffodils

succeed in any situation and in any kind of soil, wet or dry, under the trees or among the grass. Once well established they will need no further care for years and each succeeding year the clumps will multiply in size and strength, producing blooms in endless quantities. The **Polyanthus** varieties are not hardy in the North, but for house culture they are superb. The hardy varieties also succeed well in the house or greenhouse. Our list following is composed of the most satisfactory varieties.

VON SION. The famous "old double yellow Daffodil." Rich golden yellow perianth and trumpet. One of the best forcing sorts as well as being perfectly hardy. Each 3 cents; 3 for 8 cents; per dozen 30 cents; per 100 \$1.60; per 1,000 \$14.00.

VON SION. "Double Nose." Extra large bulbs capable of producing two to three flowers each. Each 4 cents; 3 for 11 cents; per dozen 40 cents; per 100 \$2.50; per 1,000 \$21.00.

GOLDEN SPUR. One of the grandest Daffodils, with extra large, bold, rich yellow flowers, foliage very broad and striking. It is of unusually robust habit, and unsurpassed for gardens, pots or forcing. Early and extremely free flowering, 3 cents each; 3 for 8 cents; 30 cents per dozen; \$1.75 per 100; per 1,000 \$15.00.

GOLDEN SPUR. "Mother" Bulbs. Extra quality 4 cents each; 3 for 11 cents; per dozen 40 cents; per 100 \$2.50; per 1,000 \$21.75.

DOUBLE DAFFODIL (Von Sion.)
Everybody's Favorite.

EMPEROR, A SUPERIOR DAFFODIL

(See Cut Below)

A magnificent flower; perianth deep primrose; trumpet large, rich yellow. Should be largely grown in flower beds, borders or naturalized in grass.

Mammoth Bulbs, each 6 cents; 3 for 15 cents; per dozen 50 cents; per 100 \$3.00; per 1,000 \$25.00.

Select Bulbs, each 4 cents; 3 for 11 cents; per dozen 40 cents; per 100 \$2.50; per 1,000 \$21.75.

BICOLOR VICTORIA. A comparatively new variety, perianth creamy, trumpet rich yellow, delicately perfumed; excellent for pots, 4 cents each; 3 for 11 cents; 40 cents per dozen; \$2.50 per 100; per 1,000 \$21.75.

EMPRESS. Perianth snow-white, trumpet rich yellow, serrated and flanged at the edges, large in outline and of rare beauty for cutting.

Mammoth Bulbs, 5 cents each; 3 for 12 cents; per dozen 40 cents; per 100 \$2.50; per 1,000 \$21.75.

Select Bulbs, 3 cents each; 3 for 8 cents; per dozen 30 cents; per 100 \$1.75; per 1,000 \$15.00.

POETICUS. (Pheasant's Eye, or Poet's Narcissus.) Flowers large, snow white, with beautiful cup suffused with bright orange-red; blooms in May; very fragrant. Each 3 cents; 3 for 7 cents; 20 cents per dozen; 75 cents per 100; \$5.00 per 1,000.

POETICUS ORNATUS. The most perfect form of the Poet's Narcissus. It is more symmetrical than the old Poeticus and blooms a month earlier, flowers large, pure white, cup margined with scarlet.

Mammoth Bulbs, each 4 cents; 3 for 11 cents; per dozen 35 cents; per 100 \$1.50; per 1,000 \$12.00.

Select Bulbs, each 3 cents; 3 for 8 cents; per dozen 25 cents; per 100 90 cents; per 1,000 \$7.50.

PRINCEPS. Very early. This is one of the most popular winter-flowering and forcing varieties grown. Flowers large, perianth sulphur, an immense rich yellow trumpet. 3 cents each; 3 for 8 cents; 25 cents per dozen; \$1.10 per 100; per 1,000 \$9.50.

ALBA PLENA ODORATA. (Double Poet's Narcissus, or Gardenia Daffodil.) Double, pure white; very sweet scented. This beautiful variety cannot be forced. It succeeds best planted on rather heavy soil, in partial shade, and where it will not suffer from lack of moisture. Each 3 cents; 3 for 7 cents; 20 cents per dozen; 85 cents per 100; per 1,000 \$6.50.

ORANGE PHOENIX. (Eggs and Bacon.) Light citron, with orange center; an excellent flower for forcing. 3 cents each; 3 for 8 cents; 25 cents per dozen; \$1.15 per 100; \$9.50 per 1,000.

SWEET SCENTED JONQUILLS. (Narcissus Jonquilla and Odorus.) All of the Jonquills are prized for their graceful, golden, fragrant blossoms and the ease with which they may be grown. Half a dozen bulbs can be put in a 5-inch pot, and with the same treatment as recommended for Hyacinths a fine display can be had from January to April. Their cost is so trifling that liberal plantings should be made out-doors. A clump of 50 or more bulbs put here and there among shrubbery or interspersed in the hardy border or naturalized in the grass gives an indescribably rich effect in the early spring, while a vase of the cut blooms will fill a room with the rich, spicy odor.

SINGLE SWEET-SCENTED. (Narcissus Jonquilla.) Rich yellow; not as large a flower as the others, but most fragrant. Each 2 cents; 3 for 5 cents; 15 cents per dozen; 75c per 100; \$5.00 per 1,000.

CAMPANELLE RUGULOSUS. The largest flowering; a handsome flower; color pure yellow; very fragrant. 3 cents each; 3 for 7 cents; 20 cents per dozen; 75 cents per 100; \$5.00 per 1,000.

DOUBLE SWEET-SCENTED. Full double golden yellow. Each 3 cents; 3 for 8 cents; 25 cents per dozen; \$1.50 per 100; \$12.50 per 1,000.

EMPEROR.
One of the Grandest
of Daffodils.

PLANT "MAY BLOOMING TULIPS IN THE PERENNIAL BORDER.

CHINESE SACRED
LILY
OR JOSS FLOWER.

IMPERIAL CHINESE SACRED LILY

(Soy Sin Far, Joss Flower, or Flower of the Gods.)

This is the "Narcissus Orientalis," and the variety grown by Chinamen for decorating their temples or Joss-houses on their New Year's Day, which occurs in February. For the most part they are grown in water in fancy bowls, with just enough pebbles around them to keep them from toppling over. (See illustration.) They can also be grown in pots in soil, sand or moss. We annually import from China a large quantity of the finest quality bulbs, and if planted on arrival (about October 1st) they will flower by Christmas, and a succession of flowers can be had by making several plantings. The white and yellow flowers are borne in clusters and are highly scented.

Large Bulbs. 10c each; 3 for 25c; 80c per dozen. Original baskets, containing 30 bulbs, \$1.50.

If wanted by mail, add 3 cents per bulb for postage.

Mammoth Bulbs. These are of very large size and will give better results than smaller bulbs. 15c each; 40c for 3; \$1.50 per dozen. If to go by mail, add 5c per bulb for postage.

GIANT GOLDEN SACRED LILY. (Jong. Rug.)

As easily grown as the Chinese Sacred Lily, and a most beautiful companion to that well-known and popular plant. Flower is of handsomest glowing yellow, and very fragrant. The bulbs of this Lily are small, and ought to be planted six or eight to a pan or lily bowl, in order to make a good show. 3c each; 7c for 3; 20c per dozen.

JAPANESE DOUBLE SACRED LILY. (Or Roman Narcissus.)

Also grown in the same manner as the Chinese Sacred Lily. Produces abundantly of double flowers; white, shaded beautiful yellow; fragrant and lasting. Can be easily brought into bloom for Christmas, 4c each; 25c per doz.; \$1.50 per 100.

Lily Bowls, for Chinese Sacred and Polyanthus Narcissus. **Imitation Cut Glass.** To hold 1 bulb, 15c each; for 2 bulbs, 20c each; for 3 bulbs, 25c each.

Pebbles, for filling Lily Bowls, 10c per qt.

Lily Bowls and Pebbles cannot be sent by mail, but only by express or freight at customer's expense. No charge for packing.

We Carry a Very Complete Line of Boston Ferns and Other Decorative Plants.

Polyanthus or "Nosegay" Narcissus

For winter blooming few bulbs are so popular and so largely grown as the Paper White Grandiflora and Double Roman Narcissus. We have had especially grown for us in France a quantity of bulbs which are of extra size and strength especially for pot culture, and the amount and beauty of blooms from these fine bulbs will be far greater than from ordinary ones.

GIANT "PAPER WHITE" NARCISSUS (Grandiflora)

An improved large-flowering form of the Paper White, possessing all the good qualities of that popular and easily-grown variety and which on account of its larger flowers, is now the principal forcing sort. A very early and profuse bloomer, extremely fragrant and can be had in flower at Christmas time. Does splendidly in water, like the Chinese Sacred Lily. (See cut below,) 5c each; 40c per dozen; \$2.50 per 100; \$15.00 per 1,000.

Paper White Grandiflora, regular grade, good blooming bulbs, each 3c; 30c per dozen; \$1.50 per 100; \$13.00 per 1,000.

DOUBLE ROMAN WHITE

This is one of the most beautiful and fragrant of all the Narcissus family. It is known as the Sacred Narcissus of Constantinople. In Jerusalem it is the leading favorite of all flowers. Flowers very double, pure white with yellow center and borne in large clusters. Its fragrance is superb, and blooms very early and freely either in pots or the open ground. A grand winter bloomer. Each 4c; per dozen 25c; \$1.50 per 100.

Grand Soliel D'Or. Yellow with deep orange cup, each 5c; per dozen 50c; per 100 \$3.00.

Grand Primo. Cup citron, perianth pure white, each 5c; per dozen 45c; per 100 \$3.00.

Staten General. White, with pale yellow cup, each 4c; per dozen 40c; per 100 \$2.75.

Grand Monarque. One of the finest of the Polyantha section, and will give excellent results when grown in water. The bulbs are of large size, and throw up a profusion of large white flowers crowned with a lemon-yellow cup, each 6c; per dozen 50c; per 100 \$3.00.

Narcissus Giant Paper White Grandiflora.

GIANT GRANDIFLORA NARCISSUS ARE EXCELLENT FOR HOUSE CULTURE.

Miscellaneous Bulbs

FOR HOUSE AND OUTDOOR CULTURE

AMARYLLIS.

Johnsonii. The immense trumpet-shaped flowers, which measure from 6 to 8 inches across, are borne on strong, fleshy flower stems, and are of rich velvety crimson, each petal having a broad white stripe, contrasting beautifully with the deep red color. **Large bulbs, 30c each; 85c for 3, postpaid. Mammoth Bulbs, 50c each; \$1.25 for 3, postpaid.**

ALLIUM.

Neapolitanum. An excellent variety for winter flowering, pure white, with green stamens borne in large loose umbels; 6 for 10 cents; 15 cents per dozen; \$1.00 per 100.

CALLA AETHIOPICA (Calla Lily).

A well-known plant, of easy culture; the only particular attention it requires is constant watering, and as warm a room as can be conveniently given it.

White Calla, or Lily of the Nile. Dry roots. Each 15 cents; 3 for 40 cents; per dozen \$1.50.

Mammoth Bulbs. 25 cents each; 3 for 60 cents; \$2.00 per dozen.

Monster Roots. Each 40c; 3 for \$1.00.

GIANT FLOWERED CROCUS.

One of the earliest of spring flowering bulbs, and should be planted liberally in every garden. In large groups Crocus are very striking, planted either in blocks or separate colors or as mixtures. They can also be planted in the lawn scattered promiscuously, and the effect will be very striking. They can be left undisturbed for years and will ever increase in quantity of bloom. They do not interfere in any way with the lawn.

Winterson's Named Crocus.

The bulbs of these are three or four times the size of the common Crocus, about an inch in diameter; they are sure bloomers, producing larger and finer flowers than bulbs ordinarily sold.

Baron von Brunow. Dark blue, per dozen 15c; per 100 70c; per 1,000 \$6.00.

Mont Blanc. Pure white, per dozen 15c; per 100 70c; per 1,000 \$6.00.

Sir Walter Scott. White, blue-striped, per dozen 15c; per 100 70c; per 1,000 \$6.00.

Cloth of Gold. Yellow and brown, per dozen 15c; per 100 70c; per 1,000 \$6.00.

GIANT YELLOW CROCUS. (Holland's Prize.)

The most magnificent of Crocus, produces enormous blooms of a golden yellow. Excellent for house culture as well as outdoor blooming. Per dozen 20 cents; per 100 \$1.00; per 1,000 \$9.00.

WINTERSON'S SPECIAL MIXTURE.

(Giant-Flowered Crocus.) This mixture is made up from named sorts only, including Giant Yellow. The colors are properly proportioned. For planting outdoors in lawns, along borders, or amongst shrubbery this mixture cannot be excelled. 15 cents per dozen; 65 cents per 100; \$6.50 per 1,000, by express at purchaser's expense.

CROCUS, MIXED VARIETIES.

These bulbs are of good size and will produce large flowers.

THE GRAND NEW FREESIA, PURITY.

A grand acquisition to the Freesias, and for the grower as a cut flower or pot plant, no one should be without a few bulbs of this delightful novelty. Flowers, which are a snowy white, of large size, are borne in great profusion on stems 2 to 2½ feet, which grow upright and stiff; are excellent for cut flower purposes. 5 cents each; 50 cents per dozen; \$3.50 per 100; \$30.00 per 1,000.

FREESIA REFRACTA ALBA.

Of all South African flowering bulbs, the Freesia is doubtless the best known and most esteemed. The gracefully branched, fragrant flowers are of long duration, and being freely produced, are profitable for commercial purposes, and satisfactory to amateurs. If planted early they may be had in bloom by Christmas. Plant eight or ten bulbs in a 6-inch bulb-pan, covering them one inch. The peculiar habit, its delicious perfume and great value for cutting, have made it immensely popular.

Large bulbs, 15 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

Mammoth selected bulbs, 25 cents per dozen; \$1.75 per 100; \$15.00 per 1,000.

Monster bulbs, 40 cents per dozen; \$2.50 per 100; \$20.00 per 1,000.

SPANISH IRIS. (Iris Hispanica.)

Perfectly hardy, and equally good for pot or garden culture. The flowers are of great beauty, having many different blendings of color, and if cut when in the bud state will last a long time in water. For best effect they should be planted in clumps or masses of 25 or more bulbs set three inches apart each way. When planted in pots and grown out of doors in the cold frame they can be brought in when growth is well advanced, and will flower late in March or early April.

Belle Chinoise, fine yellow; British Queen, purest white; Darling, finest dark blue; La Tendresse, creamy white; any of the above 3c each; per doz., 20c; per 100 75c; per 100 \$6.00.

ORNITHOGALUM ARABICUM. (Star of Bethlehem.)

One of the most striking flowering bulbs. As an Easter decoration it is superb. Its immense spike of pure white flowers is simply grand. Not hardy except in southern states. 6c each; 15c for 3; 50c per dozen, postpaid.

OXALIS.

Lovely little bulbous plants for hanging pots and baskets. The bulbs should be planted an inch deep, six or eight in a 5-inch pot. They need a sunny situation.

Bermuda Buttercup. Extra-sized bulb, each 3c; per dozen 30c; per 100 \$2.00.

Bowiei. Rosy crimson; fine flower, each 3c; per dozen 25c; per 100 \$1.50.

Lutea. Single yellow, each 2c; per dozen 20c; per 100 \$1.05.

Rosea. Rose, each 2c; per dozen 20c; per 100 \$1.00.

Mixed, All Colors, per dozen 15c; per 100 \$1.00.

(See illustration opposite.)

SNOWDROPS. (Galanthus.) The charming Snowdrop is the first of all flowers to herald the approach of spring. It can frequently be seen in bloom when the ground is white with snow, as it takes every advantage, and hastens to display its graceful snow white bells before the winter has disappeared.

Elves' Giant. An exceedingly large and beautiful single variety; flowers snow-white, with emerald-green tube, 15c per dozen; 75c per 100; \$6.00 per 1,000.

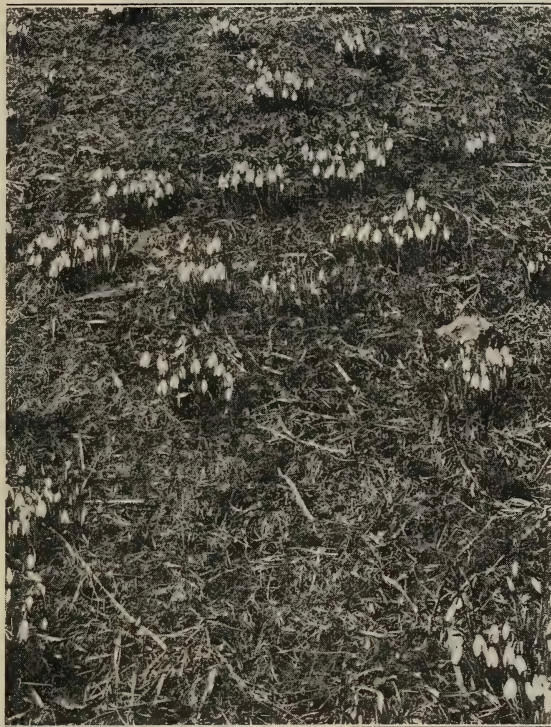

Double. Flowers perfectly double, pure white. 25c per dozen; \$1.25 per 100; \$11.00 per 1,000.

SCILLA SIBIRICA. (Squills.)

One of the finest of our hardy spring bulbs, which cannot be too highly recommended. Splendid for planting as an edging, or for filling small beds, if planted sufficiently thick the effect is matchless, and equally so grown in the border in groups of a dozen or a hundred. Flowers of a lovely ultra-marine blue.

Mammoth Bulbs. 4c each; 10c for 3; 20c per dozen; \$1.25 per 100; \$3.00 for 250; \$10.00 for 1,000.

Select Bulbs. 2c each; 15c per dozen; 75c per 100; \$2.00 for 250; \$8.00 per 1,000.

SNOWDROPS.

PLANT CROCUS IN THE LAWN

See Page 20 for Illustration and Method of Planting

Hardy Perennials

THE FLOWERS OF OUR GRANDMOTHER'S GARDEN

SHASTA DAISY.

DELPHINIUM CHINESE—Siberian Larkspur.

Blossoms in midsummer, blue or white blossoms, an excellent variety for cutting.

DIANTHUS BARBATUS—Sweet William.

Produces flowers of a great variety of colors, very hardy.

DIANTHUS PLUMARIUS—Garden Pink.

Blooms in July and August, pink blossoms, a desirable edging plant long in favor, bearing beautiful silvery foliage in thick tufts, flowers very fragrant.

DICENTRA SPECTABILIS—Bleeding Heart.

Blooms in May and June, red blossoms, a very beautiful plant with its long curved sprays of red hearts with white markings.

FUNKIA OVATA—Oval Leaved Day Lily.

Blooms in July and August. Blue blossoms. Deep-green foliage, attractive and handsome.

FUNKIA SUBCORDATA—White or Corfu Lily

Blooms in August and September. White blossoms. Deliciously fragrant, snow white blossoms often six inches in length. Foliage light green.

GAILLARDIA GRANDIFLORA—Blanket Flower.

Blooms from early summer to autumn. Yellow or purple blossoms. Very ornamental and hardy plant.

HEMEROCALLIS FLAVA—Lemon Lily.

Blooms in June and July. Yellow blossoms. This variety is highly esteemed for cutting. It will bloom out freely in water. It bears its yellow lilies on long stalks above the grass-like foliage. They are unusually fragrant.

HEMEROCALLIS FULVA VAR. KWANSO—Double Lemon Lily.

Blooms in July and August. Does best in a moist situation, and where there is some shade. It is probably the tallest growing species. The flowers are double, orange colored.

HEMEROCALLIS THUNBERGII.

Has beautiful lemon-yellow colored blossoms. Blooms late in the summer.

Autumn Sowing of "Hardy Evergreen" Lawn Seed is "Worth While," and You Will Be Pleased With the Results Next Spring.

Planted this fall, they will bloom freely next summer and each year thereafter. You cannot have too many of them.

PRICES.

Strong blooming plants, each 15c; per dozen \$1.50.

Extra large plants, each 25c; per dozen, \$2.50.

AQUILEGIA CANADENSIS—Rocky Mountain Columbine.

Blooms from May to July. Blossoms all colors. A most attractive variety, both in foliage and flowers. To grow well, the soil should be well drained.

ASTER—New England.

Blooms in August and October. Deep purple blossoms. This is a native, with blooms of purple flowers with a yellow center. Thrives well in shady locations and in any soil.

CHRYSANTHEMUM MAXIMUM.

Large white flowers blooming throughout the summer. Very showy.

CHRYSANTHEMUM MAXIMUM VAR. SHASTA—DAISY.

A variety of the preceding with very large flowers. Not hardy in heavy soil.

COREOPSIS LANCEOLATA—TICKSEED.

Blooms throughout the summer, yellow blossoms, very showy, and blooms freely.

DELPHINIUM FORMOSUM. In the perennial Delphiniums, or Larkspurs, we have one of the most beautiful and useful families in hardy plants. The old Delphinium Formosum is one of the few hardy plants which has been pretty generally offered by the plant trade, yet is comparatively unknown, although few things can be planted that will give more satisfaction, whether the object is decorative effect in the garden or flowers for cutting for the house. The flowers are intense deep blue, perhaps the most brilliant blue to be found in flowers freely produced in long spikes. It blooms in June and July and continues for a long time in bloom, and if the plants are cut back after flowering will bloom a second time in the fall. Plants grow to 4 or 5 feet high, and if planted in masses about two feet apart will produce a splendid effect.

DICENTRA. (BLEEDING HEART.)

"WASHINGTON" BRAND CHERRY TREES ARE THE BEST IN THE MARKET.

Hardy Perennials

"The Flowers of our Grandmother's Garden"

(Continued)

Perfectly Hardy and Increase in Volume Yearly

Planted this fall, they will bloom freely next summer and each year thereafter. You cannot have too many of them.

PRICES.

Strong blooming plants.....each **15c**, per dozen **\$1.50**
Extra large plants.....each **25c**, per dozen **\$2.50**

HIBISCUS MOSCHEUTOS VAR.—Crimson Eye.

Three feet high at maturity. Blooms in August and September. White with crimson center. A very desirable perennial; flowers are very large, three or four inches across. It is a strong grower, preferring moist soil.

Our Collection Is One of the Best and Largest in This Country.

Peonies

See Front Cover Page

IRIS GERMANICA—German Iris or **Fleur de Lis**. Blooms in May and June, according to variety. Orchid-like flowers. Thrive in any soil; white, yellow and intermediate colors.

JAPANESE IRIS—(See illustration.) The most beautiful of all Iris, ranging in color from pure white to deepest purple and dark red; blooms later than the German varieties.

LOBELIA CARDINALIS — **Cardinal Flower**. Blooms in June and July. Cardinal red blossoms, one of the most showy of all native hardy perennials. Does best in a moist situation.

THE JAPANESE IRIS.

ORIENTAL POPPIES.

PAPAVER ORIENTALIS — **Oriental Poppy**. Blooms in June. Scarlet blossoms. Very showy.

PLATYCODON MARIESI — **Chinese Bellflower**. Blooms from July to September. Blue blossoms. Produces bell-shaped flowers which are very large.

PYRETHRUM ROSEUM. Blooms in May and June. Red blossoms. A very desirable plant for cutting.

HARDY PERENNIAL PHLOXES. The beauty and usefulness of these grand border plants give to them a deservedly first place among hardy plants. For cutting, their large trusses go a long way in floral decoration. In color they range from pure white to the richest crimson and purple, and from soft rose and salmon to bright coral-red, all having a delicate fragrance.

Coquillecot, brilliant orange scarlet.
Eclaireur, rich purple-carmine.
Le Soleil, soft rose pink.
Pearl, clear white, moss pink.

RUDBECKIA LACINIATA VAR.—**Golden Glow**. A well-known plant useful as a background for other lower flowers.

HARDY PHILOX.

Jeanne de Arc, white.
La Vogue, pale pink.
Lothair, red.
Ornament, pink.
Richard Wallace, white, pink eye.
The Queen, white.
Beranger, blush rose.

Hardy Ornamental and Flowering Shrubs

FOR FALL PLANTING

(Ready About October 20th.)

NOTE—Our list herein is made up from varieties that we know will succeed with fall planting. For spring planting we can supply some hundreds of varieties and which will be fully described in our 1911 catalogue. **Supplied Free.**

GOLDEN BELL or Forsythia *Fortunei.*

Blooms in April. Yellow blossoms.
3 to 6 ft.....Each 30c to \$1.00

HONEYSUCKLE. Morrowii or Japanese Honeysuckle.

Blooms in July. White blossoms.
This variety is at the height of its beauty when covered with bright red fruit from August until late in the Fall.

2 to 5 ft.....Each 35c to \$1.00

BARBERRY, GREEN. Berberis Vulgaris, European.

Blooms in June. Yellow blossoms.
Where a dense spiny low fence is desired this is the best.

2 to 5 ft.....Each 35c to \$2.00

BURNING BUSH. Euonymus Europaeus.

Grows quite tall for a shrub. Its leaves turn scarlet in Autumn.
Large dark red fruit

2 to 5 ft.....Each 30c to 50c

BUTTON BUSH. Cephalanthus Occidentalis.

Blooms in July. Blossoms with globular heads of white flowers.

2 to 5 ft.....Each 35c to 75c

CRANBERRY, HIGH BUSH. Viburnum Opulus.

Has handsome flowers. Very ornamental and useful shrub.

2 to 4 ft.....Each 35c to 75c

CURRENT, INDIAN. Symphoricarpos Vulgaris.

A beautiful shrub. Foliage, flowers and fruit are small. Fruit hangs all winter. 2 to 5 ft.....Each 25c to 75c

DEUTZIA.

Dwarf habit, luxuriant foliage and greatest profusion of attractive flowers. 2 to 3 ft.....Each 25c to 50c

DOGWOOD. Cornus Siberica. Red Siberian Dogwood.

Blooms in July. White blossoms.
A rare and remarkable variety, with bright red bark in Winter. Most desirable. 2 to 4 ft.....Each 35c to \$1.00

ELDER, GOLDEN. Sambucus Nigra Aurea.

White blossoms. Blooms in June.
2 to 5 ft.....Each 35c to 75c
Where it is desired to produce the richest color, this shrub should be planted in a sunny spot.

BARBERRY, JAPANESE or THUNBERG'S.

Blooms in June.

Red and yellow blossoms.

This low globular bush of dense growth, with small shining leaves, is desirable for use in masses in front of taller shrubbery because it trims down well to the grass. Its ornamental fruit hangs on all winter.

2 to 3 ft.....Each 20c. to 50c

BARBERRY, PURPLE LEAVED.

Three to five feet high at maturity.

Blooms in June. Yellow blossoms.

2 to 4 ft.Each 35c to 60c

Large Flowering Purple Lilac.

HARDY ORNAMENTAL AND FLOWERING SHRUBS. (Continued.)**HONEYSUCKLE. Tartarian, Lonicera.**

Blooms in June.

White, pink and red blossoms.

2 to 6 ft..... Each 30c to \$1.00

HYDRANGEA, PANICULATA. Grandiflora.

Blooms in August and September.

White blossoms.

This rare sort blooms earlier and longer than the ordinary variety, for the reason that only a small part of the panicle is in flower at once.

1 to 3 ft..... Each 20c to 50c

LILAC, SYRINGA.

Blooms in May.

These always reliable varieties, the purple and white, are still indispensable, when shrubbery is desired. They bloom best grown in rich soil, but will thrive under all conditions.

2 to 6 ft..... Each 25c to \$3.00

LILAC, GERMAN PURPLE.

Blooms in May.

Deep purple blossoms.

Of deeper shade than the common variety. Imported.

3 ft. high, each \$1.00. Extra fine heavy plants, each \$5.00

LILAC, PERSIAN.

Blooms in May.

Reddish purple blossoms.

2 to 5 ft..... Each 35c to \$1.00

MOCK ORANGE. Philadelphus Coronarius.

Blooms in June.

White blossoms.

A beautiful shrub with pure white highly scented flowers.

Each 25c to \$1.00

PRIVET, AMUR, Ligustrum.

Blooms in June and July.

White blossoms.

This variety is similar to the California Privet, except that the Amur is hardy here. Its habit is upright,

rendering it possible for trimming in any shape desired.

2 to 3 ft..... Each 25c to 50c

PRIVET, IBOTA.

A beautiful variety.

2 to 3 feet, selected..... Each 25c

PURPLE FRINGE or SMOKE TREE.*Rhus Continus.*

Blooms in June.

White blossoms.

This shrub, besides being beautiful and distinct, with its large bunches of feathery flowers, is remarkable chiefly because it appears to be covered with a cloud of smoke.

2 to 5 ft..... Each 35c to \$1.00

QUINCE. (Cydonia Japonica). Japan Flowering Quince.

Blooms in May.

Scarlet blossoms.

This variety, too, is frequently used as a hedge, as it bears pruning well, has small thorns. It is a bush of many stems, and the flowers precede the leaves. It bears a fragrant orange fruit.

2 to 3 ft..... Each 35c to 75c

SNOWBALL. Viburnum Opulus Sterilis.

Blooms in June.

White blossoms.

While this is an old shrub it is not the less desirable, as it is very showy and thrives in the shade.

3 to 7 ft..... Each 25c to \$1.00

SNOWBERRY. Symphoricarpus Alba.

Blooms in July and August.

Pink blossoms.

On account of its showy white berries, and because of its drooping habit later in the season, this shrub is much in use as a trimmer.

2 to 4 ft..... Each 25c to \$1.50

**SPIRAEA, VAN HOUTTEI (Bridal Wreath).****SYRINGA GRANDIFLORA, MOCK ORANGE.**

Hardy Ornamental and Flowering Shrubs

(CONTINUED)

SPIRAEA VAN HOUTTEI. (Bridal Wreath.)

Blooms in June. White blossoms. Without doubt the finest variety of the collection. At the flowering season in early June the plant is covered with a mass of large white flowers. Very beautiful.
2 to 4 ft. Each 20c to \$1.25

STRAWBERRY TREE. (Euonymus.)

Blooms in June. Purple blossoms. Sometimes called the Spindle Tree or Burning Bush. It is a tall native shrub, and is suitable for mass-planting. Thrives well in the shade and in any soil. Its charm lies in its scarlet fruit, which it yields in showy profusion.
3 to 7 ft. Each 50c to \$2.00

SUMACH, CUT-LEAVED. Rhus Typhina Laciniata.

Blooms in June. Green blossoms. The sub-tropical effect of this variety is due to its deeply cut compound foliage. It retains a low growth, and usually becomes a bright crimson in the Fall.
1 to 3 ft. Each 35c to \$1.50

WEIGELIA ROSEA.

SYRINGA. Philadelphus Grandiflorus.

White blossoms.

The large individual flowers of this choice shrub appear when others have ceased to bloom. It grows narrowly, rapidly and is a tall species of the Mock Orange variety.
2 to 6 feet Each 35c to 75c

TAMARISK. Tamarix.

These are very beautiful shrubs, with small leaves, somewhat like those of the Juniper, and delicate small pink flowers in spikes, which appear in June and July.

3 to 5 ft. high.... Each 35c to \$1.50

VIBURNUM OPULUS, or HIGH BUSH CRANBERRY.

The foliage of this variety is large, showy, and dark, which it retains late. Its growth of flowers and fruit is quite attractive, and for planting near the street is very suitable. Does well in shady localities.

1 to 3 feet high.... Each 25c to 75c

WEIGELIA ROSEA.

Six feet high at maturity. Blooms in May and June. Rosy pink blossoms. Of easy culture. In growth it is strong, broad and graceful.

2 to 5 ft. high.... Each 35c to 75c

Shade and Ornamental Trees

CATALPA SPECIOSA.

We grow only the variety which thrives in sand. With its large leaves and fragrant flowers in great panicles, it is decidedly tropical-looking, while it is a rapid grower. Perfectly hardy.

1 to 3 in. in diameter..... Each 75c to \$4.00

CRAB APPLE—BECHTEL'S DOUBLE FLOWERING. Malus ioensis Bechteli.

Originating in the West it is unlike the other sorts from Japan and China, in that it is not subject to the attacks of borers. It is a double variety and very showy, and is without doubt the handsomest ornamental crab grown.

4 to 5 ft Each \$1.25

ELDER—BOX. Acer Negundo.

Of irregular, spreading habit, and rapid growth. Desirable as a covering for unsightly objects. Belongs to the maple family.

1½ to 2 in. Each \$1.50 to \$2.00

ELM—AMERICAN. Ulmus.

They may be grown with spreading tops. In this form they may be used for planting on the lawn for shade. The finest street tree.

1½ to 4 inch. Each \$1.50 to \$5.00

ELM—CAMPERDOWN WEeping. Ulmus Pendula.

One of the most picturesque drooping trees for individual lawn planting.
10 to 12 ft. high..... Each \$4.00

MAPLE—NORWAY. Acer Platanoides.

A large, handsome tree for all conditions. Of spreading, rounded form, with broad, deep green, shining foliage. Most desirable for the street, park or garden.
½ to 1½ in. diameter.... Each 75c to \$2.00

HORSE CHESTNUT. Aesculus Hippocastanum.

The variety we offer is of the eastern sort. It is round-headed, and has showy white flowers. A most attractive lawn tree, thriving well in partial shade.

8 to 10 feet high..... Each \$1.50

LINDEN—AMERICAN. Tilia Americana.

A rapid growing, large-sized, beautiful native tree, with large leaves and fragrant flowers. Our trees are suitable for line or formal planting. Can supply uniform trees in any quantity.

1½ to 2½ in. in diameter..... Each \$1.50 to \$2.50

MULBERRY—TEAS' WEEPING. Morus Alba Pendula.

The most graceful and hardy weeping tree in existence. Forms perfect shaped head with long slender, willowy branches drooping to the ground in light, airy gracefulness, delicacy of form and motion. It is without a rival. It has beautiful foliage, is hardy, safe and easy to transplant. Admirably adapted for small or large grounds or for cemetery planting.
2 to 4 years old..... Each \$2.50 to \$5.00

POPLAR—CAROLINA. Populus Monilifera.

We offer the seedless form of this variety, which creates no litter, for lawns or screens. It stands smoke and soot, thrives in sandy soil, and is a quick grower.

1½ to 2 in. in diameter.... \$1.50 to \$2.00

PLUM—PURPLE LEAVED. Prunus Pissardi.

The finest purple-leaved small tree of recent introduction. Transplants easily. The beautifully tinted foliage is retained until late in the autumn.

3 to 4 ft. high..... Each 75c

CATALPA TREE.

NOTE—We can supply all Shrubs and Trees in commerce at advantageous prices. If you do not find in this list the desired stock, please ask us for prices on what might be needed.

RASPBERRIES.

Cuthbert, red, very large, sweet, carries well.
Kansas, black, best black cap, vigorous, very productive. Each 25c; per 10 \$2.00.

RHUBARB.

Linnaeus, pie-plant, large, early and tender.
Large clumps, which will produce a crop next year, 50c to \$1.00 each.

SEE BACK COVER PAGE FOR ILLUSTRATION AND DESCRIPTION OF "WASHINGTON" BRAND CHERRY TREES. (NONE BETTER.)

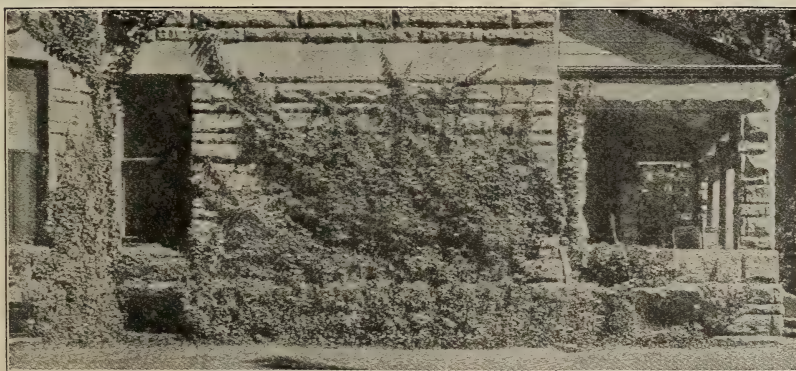

Hardy Climbing Vines

For Fall Planting

AMPELOPSIS VEITCHII—

Boston Ivy.

It is especially recommended for the ornamentation of brick and stone structures. It also clings to wood. For covering walls, stumps of trees, rockeries, etc., no plant is so useful. The foliage is very handsome in summer, and changes to crimson scarlet in autumn; 2 year old, each 50c; per 10 \$3.50.

AMPELOPSIS VEITCHII (Boston, or Japanese Ivy).

CELASTRUS SCANDENS—Bittersweet.

Very attractive vine with its rich, glossy foliage and yellow flowers followed by orange berries, which are retained throughout the winter. It festoons nicely, most of the branches being at the top.

2 year old	Each 35c; per 10	\$3.00
4 year old	Each 75c; per 10	\$5.00

LONICERA—Hall's Honeysuckle.

A strong, vigorous almost evergreen sort, with pure white flowers, changing to yellow. Very fragrant and covered with flowers in fall. In this climate it should not be trained too high.

2 year old	Each 50c; per 10	\$4.00
3 year old, strong.....	Each 75c; per 10	\$6.00

AMPELOPSIS QUINQUEFOLIA

—Virginia Creeper.

There is nothing finer for covering walls, verandas or trunks of trees; affords shade quickly. In autumn its brilliantly tinted foliage and blue berries enhance its beauty. Very desirable in every way.

2 year plants, each 35c; per 10	\$3.00.
---------------------------------	---------

4 year plants, strong, each 75c; per 10	\$5.00.
-----------------------------------------	---------

ARISTOLOCHIA SIPHO—Dutchman's Pipe.

A rapid growing vine with beautiful light green foliage and pipe shaped yellowish brown flowers. Excellent for covering porches, free from attack of insect or fungi.

Strong plants	Each 75c; per 10	\$5.00
---------------------	------------------	--------

ENONYMUS RADICANS.

An evergreen vine, excellent for covering walls, rocks and stumps of trees. Of somewhat slow growth.

3 year old	Each 50c; per 10	\$4.50
------------------	------------------	--------

WINTERSON'S "COMBINATION" LAWN FERTILIZER. "COMBINATION" LAWN FERTILIZER is a fertilizer especially prepared for lawns. It possesses in the highest degree and concentrated form those constituents best calculated to nourish the grass, promote its luxuriant growth and produce the Dark Green Color so greatly admired. It is not only the Most Perfect Lawn Dressing that

has been devised, but it is the most pleasant to handle, being Non-Odoriferous, so that its liberal use on a lawn cannot be detected by any unpleasant odor. Being dry and fine, it is easy to apply; and imparts a Vigorous Growth to the grass. Per 10 lbs., 45c; 25 lbs., 90c; 50 lbs., \$1.50; 100 lbs., \$2.60 (Sow in the Fall.)

EVERGREEN BRAND FERTILIZER, JOHNSON'S.

A complete fertilizer for the lawn and garden now generally used by some of the largest cut flower growers and golf clubs in this country for quick effect. Per 12 lbs., \$2.00; per 5 lbs., \$1.00.

PULVERIZED SHEEP MANURE—THE BEST "ALL AROUND" FERTILIZER.

Decorative House Plants

THE GRAND BOSTON FERN.

The Boston Fern

(*Nephrolepis Bostoniensis*.)

Thrives in all rooms, gas or furnace heat does not seem to injure it. Fronds are often six to seven feet long, a 5-inch plant increasing to 10-inch size in a year, besides making many new offshoots. A good size plant contains from 20 to 40 fronds, and the fresh ones continually coming out with new growth are very beautiful.

5-in. pots, bushy plants, each 50c; 6-inch pots, bushy plants, each 75c; 6-inch pots, extra large and full, each \$1.00; 7-inch pots, extra fine plants, each \$2.00; specimen plants, each \$3.00 to \$8.00.

WHY WE CAN SUPPLY YOU TO ADVANTAGE

We grow Decorative Plants by the thousands mainly for the Florist trade and consequently are always able to select from our immense stocks plants of the highest quality. Such that have been thoroughly hardened off in cool greenhouses and which will give the utmost satisfaction for house culture.

Free delivery to any part of Chicago or suburbs.

ASPIDISTRA VARIEGATA
(So-called "Iron Plant").

The New Ostrich Plume Fern, "Whitmani"

Of dwarfer and more compact habit than the *N. Elegantissima*, but the pinnae being more deeply divided gives the plant a much more graceful appearance. 1st size, 75c each; 2d size, \$1.00 each; 3d size, \$2.00 each.

Table Ferns for Fern Dishes, Etc.

Each, 15c, any 2 for 25c; or the 5 for 50c *Cyrtomium Falcatum* (Holly Fern). Thick, dark green leaves. *Pteris Alba Lineata*. A variegated variety, white and green. *Pteris Wimsettii*. Fine for fern pan and house use; crested. *Pteris Serrulata Cristata*. Dwarf and bushy, graceful foliage. *Maiden Hair*. A very graceful Fern and easily grown.

ARAUCARIA EXCELSA
Norfolk Island Pine

RUBBER TREE

(*Ficus Elastica*)

The large shining green leaves endure the dry air of a living room as well or better than any other plant. Plants 1 foot high, each 60c; 18 inches high, each, \$1.00; 3 feet high, \$2.00.

Norfolk Island Pine

(*Araucaria Excelsa*).

This beautiful house plant resembles the pine somewhat in appearance. Plants 12 inches high, each, \$1.50; 14 inches, \$2.00; 18 inches, \$2.50.

Aspidistra Variegata

One of the most satisfactory of house plants on account of its extreme hardiness, commonly called the "Iron Plant," owing to the fact that it seldom dies even though much neglected, furthermore it continues to send up new leaves from the root.

Large plants with about 10 leaves, 18 to 20 inches high, each, \$2.00. Specimen plants, \$3.00, \$4.00, \$5.00 each.

Palm-Kentia.

Pandanus Veitchii

Leaves are light green, beautifully marked with broad stripes of pure white and gracefully curved. Each, 50c; large plants, 15 inches high, each, \$1.00; larger plants, from \$2.00 to \$5.00 each.

Kentia Palm

The most popular parlor palm we grow. Hardy and rugged under all kinds of treatment. Plants 10 inches high, each, 50c; 15 inches high, each, 75c; 2 feet high, \$2.00.

Latania Borbonica Palm

Of easy culture and rapid growth. Large broad fan shaped, glossy, dark green leaves, 10 inches high, 25c; 15 inches high, 50c; 20 inches high, \$1.00.

UMBRELLA PLANT

A splendid aquatic plant throwing up stems 2 to 3 feet high, surmounted at the top with leaves. An excellent house plant, thriving in any good soil and always presenting a fresh, green attractive appearance. 3-in. pots, each, 15c; 4-in. pots, each, 25c.

Grass Seed

"HARDY EVERGREEN" LAWN GRASS SEED

Has been used with the greatest success on thousands of lawns. (None better.) This mixture is also **unequaled** for **tennis** and **croquet** grounds. Prices: Per lb., 25c; 3 lbs., 65c; 5 lbs., \$1.00; 10 lbs., \$1.85; 15 lbs., \$2.85.

QUANTITY REQUIRED.

In order to secure **quick** and **satisfactory** results, a liberal quantity of lawn grass seed should be used, as spots not seeded will surely be occupied by weeds. The usual rule is **one pound for 300 square feet, four to six bushels for an acre.**

WINTERSON'S "SHADY PLACE" LAWN MIXTURE.

A Lawn Mixture for Shaded Places and Sandy Soils.

To secure best results, it is well to sow "Shady Place" Mixture at the rate of one pound for two hundred square feet. Six to eight bushels for an acre. Per lb., 25c; 5 lbs., \$1.00; 15 lbs., \$2.85.

For Shaded Situations
Use Our

"Washington" Brand Cherries.

"WASHINGTON" BRAND CHERRY TREES

(See Illustration Opposite.)

Realizing the desire of private planters to secure specimen Cherry Trees which will not only produce an immediate decorative effect but an abundance of fruit within a short period of time after planting, we have had especially grown a large number of the handsomest trees ever offered. They are propagated on the best grade of Mahaleb stocks, which makes very hardy trees that do not sprout from the roots. As no description can do adequate justice to our two and three year Cherry Trees, we have had three typical specimens photographed, and the picture is reproduced opposite. Notice the fine roots and the smooth cut at the bud which is almost healed over. Note how well furnished with branches and how stocky and smooth the stem. The branches are low, but that is an advantage, because the fruit is more easily gathered and the tree is not affected by the wind. Look at the general appearance of the tree—its symmetry and proportions. Did you ever see a prettier one? The picture does not show the slick, oily bark, which indicates thrift and health. Experience has proved that these two and three year trees transplant extra well.

In searching for a name for our **Specimen Cherry Trees** and with the object of distinguishing the same from the average run of stock we have decided to call them **"Washington" Brand**. They cannot be secured elsewhere.

Equally beautiful for the lawn or back yard.

2-year-old, each \$1.00; 3 for \$2.75; per dozen, \$10.00.

3-year-old, each \$2.00; 3 for \$5.00; per dozen, \$18.00.

Varieties, Early Richmond, Dyehouse, Montmorency.

"HARDY
AS A
ROCK"

This New Creation Astonishes All Plant Authorities

Every authority on horticulture who has seen them is astounded at their beauty. They are truly wonderful to all who have seen them.

At the Jamestown Exposition crowds were attracted by them, and the Plant Judges awarded them the special Silver Medal Award.

Picture blooms similar to the illustration, from 8 to over 10 inches in diameter, in rich, fiery crimson, bright glowing red and soft shades of pink. The effect is startlingly gorgeous.

The attractive, graceful foliage enhances the beauty of these plants and is far superior to the old forms in this respect.

From July to late October, when the frost comes, the flowers continue to appear in abundance—three months of glorious bloom. Plant them in your shrubbery beds, perennial borders, or, in fact, anywhere on your lawn or in your garden, and the effect will surpass any other floral arrangement.

MEEHANS' MALLOW MARVELS are, in the first place, perfectly hardy, thriving in Canada where the temperature drops many degrees below zero. In the far south the results have been just as pleasing.

The Marvels spring from the same roots each spring, as a Paeony does, making a bush 6 to 8 feet high in one season.

One last merit,—they defy the insects and scale and are free from these pests.

In all our experience with them we have never known them not to flourish where conditions have been normal. They seem to require less attention than other perennials.

Order at once—a delay may mean a regret, as we sold out of some sizes and colors last season.

Our Stock is Direct From the Introducers

Planted This Fall They Will Bloom Luxuriantly
Next Summer and Continue to Increase in Size Yearly

Two-Year Old Roots

These big, heavy roots will bring big returns next season if planted out the coming fall.

Pink, Crimson or Red Marvels (in varying shades), at 75c each.

Per ten roots, \$6.00.

Big Three-Year Roots

These are extra heavy roots and, of course, will give most pleasing returns. Next summer each will make a specimen plant.

Pink, Crimson or Red Marvels (in varying shades), at \$1.00 each.

Per ten roots, \$8.00.
